Subject: RE: Debrecen circuit licence documents

Dear All,

On behalf of the TRC I must express our disappointment on the way the SEC SF in Debrecen was prepared and run.

As the commission we accepted your request to carry on an additional inspection of the track in advance and our inspector visited the track in Debrecen

and left a long list of written remarks which needed action from the organiser before the meeting.

And only on Friday, one day before the meeting, the Jury President and the Referee found out that nothing had been done

So they forced the club staff to act and work to solve at least the most important issues on safety and make the track raceable.

But it does not mean they were satisfied with the conditions. It was an attempt to save the meeting.

Then before the meeting the organiser was not able to provide the insurance certificate properly signed and stamped which is completely unacceptable. At this point we must not accept any irregularities as it can create huge problems.

So please mail a copy of the insurance document to us immediately because a statement from Mr Nadasdi is not enough.

According to the information we received from the Referee and the JP the track conditions during the meeting were hardly competitive so the riders were not able to ride and fight at the level which is expected in a meeting like that which is caused by the fact that there is not enough of material (dirt) on the track.

I am strongly concerned if the club in Debrecen is capable of running another FIME meeting this year. We will not accept any problems like that again.

There are still some issues listed in the Track Inspection Report and the Referee's Report like the APD certification by the producer which must be done by the club immediately.

I will not let the Pair SF to be held in Debrecen if I do not get all necessary documents and confirmations (as per the TIR and the Ref Report) .

Please to insure the TRC that Debrecen can run the next meeting in the proper and safe way or propose another organiser

Best regards

Piotr Szymański

Chairman of TRC FIME

Subject: Re: Debrecen circuit licence documents

Dear Andrea,

The FIME can inspect and license only tracks for international events, which is not the case with Gyula so I do not see a possibility of an official inspection there.

As regards the other two track, Nagyhalasz was inspected and licensed last year for 3 years so unless there were any major changes the license is valid.

As regards Debrecen, I understand that you want to be sure that everything is in order in advance and the new regulations will be fulfilled there.

So our inspector, Marek Wojaczek, can come to Debrecen (he can also visit Nagyhalasz shortly) this Friday if everything is ready there.

Then you will have 2 weeks to correct the problems.

As you know, you need to cover travel/accomodation costs of the inspector .

Please let me know your decision.

With best regards,  
Piotr Szymański  
The TRC FIME Chairman

Dear Piotr,

MAMS has decided to ask for a supervision of the speedway circuits in Hungary: Debrecen, Gyula, Nagyhalász. For this reason we are kindly asking FIME TRC to send an inspector preferably this week to check all the circuits. MAMS will pay the cost.

If it is possible, the inspector should be someone who is not affected nor in European Championship in Debrecen, nor in any of the previous inspections. The situation about the circuits is under debates and we would like to have a clear, definite statement made by someone totally independent.

I wait for your response about the date.

Best regards

Henrik Hermann

Subject: Re: Debrecen circuit licence documents

Dear Andrea,

It is possible to send an inspector to Debrecen even this week but the additioanl costs - travel, hotel - must be covered by MAMS.

Is the track already prepared for the season, like APD installed etc?

Looking forward to your decision

Piotr Szymański  
The TRC FIME Chairman

Dear Marek and Piotr,

We need the statement about the licence of Debrecen circuit. There is no problem with it but the 2016 inspection report insists a new check of the fence for 2017 (please see attached). As this check has not been realised in 2017, it will be made 1 day before the race this year (27th of April). If for some reason the check fails, the organization of the race will be in danger.

Our question is about the validity of the licence. Is it valid at the moment, without the 2017 check? If not, I think it would be useful to make the check more than 1 day before the race in order to have time to fix anything.

I wait for your prompt reply

I will confirm, not my decision  
Marek

And what does it mean? Is the FIME circuit licence of Debrecen valid for 2018?

I received pictures from Janusz Slaczka from Debrecen  
Seems OK  
Marek

This report says that a new check for the fence is needed in 2017.

Was there any check in 2017 made by FIME regarding the fence?

Hi

Do you have the inspection report from 2016 - as they have a licence issued in 2016 - it is before I started to work with that

Thanks

Dear Marek,

I need the circuit licence documents regarding Debrecen. We have recieved the above attached documents in 2016. But there was a supplementary inspection last fall because there were some deficiencies. I need those documents.

Attached please find  
the STRC - rulebook  
the Track Inspection Document  
the insurance form  
Let me know if you need anything else  
BR  
Marek

Dear Piotr and Susanne,

As you know, Debrecen will organize FIME Euro Speedway championship at the end of April. We are kindly asking you to send us all the documents and certificates that have been born regarding the track inspection and licence of Debrecen circuit (inspection report, licence, additional requirements, clauses, etc.) and also all the documents about the inspection and the control of the fulfillment of any additional requirement.

Many thanks in advance.
